**I. Responses to Requests for Clarifications**

No	Clarification requested	Response
1	Can you give an indication of how many CVs/team members you would like to see in this proposal?	Ideally the firm should be able to count on several members, some with a high level profile and others of a support level or analytical/research profile, to be able to deploy several team members simultaneously over various countries and short periods of time (few weeks) to complete the task within a compressed timeframe
2	How many firms are expected to be on the framework?	Depending on the # and type of evaluations that are eventually confirmed, we may like to have 5-8 firms on the LTA we could rely on for evaluations over next years
3	Are case study countries already known? If so, can this information be shared?	Not yet, the sample will be developed based on criteria that will be detailed in the approach paper that will be ready at the time of firm selection and start of the work
4	On Fin-Form 2, what categories are you looking for?	We would like to get any major categories you may have in your structure which you will use when you submit a proposal.
